

ZyPer4K Silent Decoder Makes ISE Debut in Amsterdam

Quiet Fanless Design Ideal for Deployment in Sound Sensitive Environments

ZeeVee ZyPer4K Silent Decoder

AMSTERDAM, February 5, 2019 – The newest addition to [ZeeVee, Inc.’s](#) award-winning family of ZyPer4K AVoIP decoders and encoders – the [ZyPer4K Silent Decoder](#) – makes its ISE debut in Amsterdam this year.

The ZyPer4K Silent decoder has an innovative fanless design that reduces noise in locations where the hum of a fan is problematic. In addition, it eliminates a source electrical noise that can affect the performance of connected video displays. An attractive oversized heat sink keeps the unit cool during operation.

Like all ZyPer4K encoders and decoders, the ZyPer4K Silent decoder has a 10Gb Ethernet connection, as well as a 1Gb network port, that enables it to be used for any IP network device such as digital signage media players, IP cameras, video/audio conferencing equipment and even WiFi network equipment without extra cabling.

The ZyPer4K Silent Decoder is on display at the ZeeVee ISE 2019 booth (10-S130, Hall 10) in Amsterdam.

“ZyPer4K SDVoE encoders and decoders are deployed at thousands of endpoints globally, delivering uncompressed 4K content with sub-1ms latency to an unlimited number of displays directly through off-the-shelf 10G Ethernet switches,” said ZeeVee CEO Bob Michaels. “Our latest AVoIP solution, the ZyPer4K Silent Decoder, extends the reach of our line into applications in a wide array of sound sensitive environments including classrooms, boardrooms, screening rooms, state government, military command and control, luxury yachts and more.”

ZyPer4K’s sophisticated scaling algorithms and ZyPer4K Management Platform combine to allow for the seamless creation and management of video walls of up to 25 screens and provide a robust API that any third-party controller can use.

About ZeeVee

ZeeVee (www.zeevee.com) is a global pioneer and leader in the development and deployment of AV distribution systems for industrial, commercial and residential applications. As the only manufacturer today that can deliver multimedia content over fiber, CATx and coax, ZeeVee has transformed the digital video industry with its award-winning HD to Ultra-HD/4K solutions for the pro AV and IT marketplace. The company offers a variety of innovative, cost-effective and easy to install AVoIP and RF distribution platforms. ZeeVee’s technologies and products are installed in thousands of facilities worldwide where there is a need to transport HD/UHD content from multiple sources to multiple displays over long distances. ZeeVee is a founding member of the SDVoE Alliance and a Global Presence Alliance Technology Partner.
