

# Livewire Mobile Introduces Mediadrome: New Online and Mobile Service for Record Labels and Recording Artists

**Multi-content Storefront to Help Create and Manage Fan Sites; Legendary Rock Band Guided By Voices to be First Customer**

LITTLETON, Mass., August 30, 2010 – Livewire Mobile, Inc. (Pinksheets: LVWR) introduces Mediadrome™, a new online and mobile service that allows recording artists and record labels to sell digital media including full-track music, ringtones, graphics, and videos – as well as physical merchandise – to their fans.

Mediadrome's first launch is planned for legendary recording artist Guided By Voices in conjunction with its upcoming reunion tour kicking off later this year. The tour includes a headline appearance with Sonic Youth, Pavement, Belle & Sebastian and many others at Matador Records' "Matador at 20" festival.

The music group's customized multi-content storefront, called "Guided By Voices Digital," is expected to feature an in-depth artist experience that combines the group's catalog, rare tracks and previously unavailable material as well as live tracks. It is expected to also offer Guided By Voices fans the chance to purchase tracks from the reunion tour performances, including next-day availability. The projected material available on the site will include Bob Pollard's Guided By Voices, along with his prolific solo output and side projects, including Circus Devils, Boston Spaceships, The Takeovers and many others.

Livewire Mobile is a leader in music personalization services. Founded in 1983, the company today operates one of the premiere full-track music services for mobile operators around the world including Sprint, Virgin Mobile Canada and Telecom New Zealand, and has provided additional download services for some 40 operators worldwide. The Mediadrome service builds on the foundation of the Company's proven integrated storefront technology. It plans to provide a complete fulfillment channel inclusive of end-to-end content operations, storefront building and payment/settlement services.

"Our multi-content storefront service allows the music industry to monetize the content consumers are looking for – quickly and effortlessly," said Matthew Stecker, president and CEO, Livewire Mobile. "Livewire Mobile's expertise in managing and delivering content for the telecommunications industry allows us to offer a proven, rock-solid technology platform that can handle the needs of the most complex artists with a sophisticated fan base. We couldn't think of an artist with a more intricate catalog than Guided By Voices to be our first customer."

The company's Mediadrome sites expect to sell not only traditional digital music, but to also feature rare tracks, live archives, and offer the next-day sale of live recordings. For Mediadrome artists and their fans, the service is expected to deliver an immersive experience that allows for navigation and exploration of a large and comprehensive body of work. The company believes that this type of site will be crucial in the digital music discovery experience of the future.

"Guided By Voices Digital will provide a way for fans – both old and new – to discover Pollard and Guided by Voices' extensive library as well as a place to aggregate a diverse set of content. Our partnership with Livewire will enable fans to further connect with our recording artists, broaden their music discovery and purchase the broadest array of content," said David Newgarden, Guided By Voices' business manager at ManageThis.
