

HDMI Interface Approaches 5 Billion Consumer Devices as Advanced-Performance HDMI Products Reach Market

Spotlight on New HDMI Premium Cable Certification Program Participants

LAS VEGAS, Nevada - CES - January 6, 2016 - [HDMI Licensing, LLC](#) today announced that over 1,700 licensed HDMI Adopters are expected to ship over 750 million HDMI-compliant products in 2016, as the installed base now approaches 5 billion units of HDMI-enabled products worldwide. Additionally, nearly 60% of all HDMI Adopters have licensed the latest version of the Specification, HDMI 2.0a.

HDMI 2.0a Specification Gains Momentum

New products from DTVs, PCs, AVRs and forthcoming 4K/UltraHD Blu-ray Disc players will deliver 4K/UltraHD video with higher frame rates, and greater color range and contrast via High Dynamic Range (HDR). "These new products coupled with recent content announcements from Hollywood studios and streaming services supporting 4K/UltraHD and High Dynamic Range bring a lifelike experience to the home theater," said Rob Tobias, president of HDMI Licensing, LLC. There is a demonstration showing the benefits of HDR at the HDMI Licensing booth, located at South Hall 1Booth 21012.

HDMI Forum Developing Future HDMI Specification

"The current 2.0a technology delivers stunning audio and video experiences for consumers, and it is the mission of the HDMI Forum to continually evolve and drive the next generation of HDMI Specification," said Robert Blanchard, president of the HDMI Forum. "The next version of the HDMI specification targets 8K resolution, enhanced High Dynamic Range and other important features such as delivering power over the interface to products such as streaming media sticks."

The New HDMI Premium Cable Certification Program

Recently HDMI Licensing, LLC announced the launch of its new HDMI Premium Cable Certification Program for Adopters who want to ensure ultra-reliable high performance cable connectivity at 18Gbps with the capability to deliver full 4K/Ultra HD. The program provides a best-practices High Speed HDMI Cable design guideline, an expanded compliance test specification, as well as an authentication system. The program has quickly attracted 28 participating companies (at press time) certifying cables under the new program. "HDMI cable choice can sometimes be confusing for consumers, and the Premium HDMI Cable Certification Program makes it easy to tell that the cable supports the advanced HDMI-enabled features, including the full 18.0 Gbps bandwidth enabled by HDMI 2.0a," said Kurt Denke, owner of Blue Jeans Cable. "And the scannable counterfeit-proof label removes any doubt of performance by showing that the product is authentic and has the Premium HDMI Cable certification from an HDMI Authorized Test Center. "There is an HDMI Premium Cable display and verification demonstration, as well as a 4K@60 gaming demonstration, at the HDMI Licensing booth South Hall 1Booth 21012.

Participating companies: Blue Jeans Cable, CE Link Limited, Dongguan Jimumutong Industry Co. LTD, Dongguan Kechenda Electronic Technology Co., LTD, Dongguan Suntes Electronics Technology Co.,LTD, Elka International LTD, Foxconn Electronics,Inc. , Freeport Resources Enterprises Corp, Glory Mark Electronics LTD. Taiwan Branch (B.V.I), Hank Electronics Co., LTD, Hosiden Corporation, Jiangxi Ship Electronics Co.,LTD, Johnson Components & Equipments Co. LTD., Lorom Industrial Co., LTD, Master Hill Electric Wire & Cable Co. LTD., Ningbo Broad Telecommunications Co LTD, Ningbo Kangda Electronic Co., LTD, Palconn Technology Co., LTD. ,Panasonic Corporation, Shenzhen DNS Industries Co., LTD, Shenzhen East-Topstech Electronic Technology Co., LTD., Sony Corporation, Space Shuttle Hk Hi-Fi Wire & Cable, Sure-Fire Electrical Corporation, Tsay-E (B.V.I.) International Inc., Wiretek International Investment LTD, Zhongshan Aute Electronics Technology Co, LTD; Zhongshan Zhenfu Electronics Co.,LTD

About HDMI Licensing, LLC

HDMI Licensing, LLC is the agent that licenses the HDMI Specification. The HDMI Specification combines uncompressed high-definition video, multi-channel audio, and data in a single digital interface to provide crystal-clear digital quality over a single cable. HDMI Licensing, LLC provides marketing, promotional, licensing and administrative services, as well as education on the benefits of the HDMI Specification to adopters, retailers, and consumers. The HDMI Founders are Hitachi Maxell, Ltd; Koninklijke Philips Electronics N.V.; Lattice Semiconductor; Panasonic Corporation; Sony Corporation; Technicolor S.A. and Toshiba Corporation. HDMI Licensing, LLC is a wholly owned subsidiary of Lattice Semiconductor. For more information about the HDMI Specification, please visit www.hdmi.org.

About the HDMI Forum, Inc.

HDMI Forum, Inc. is comprised of the world's leading manufacturers of consumer electronics, personal computers, mobile devices, cables and components. An open trade association, The HDMI Forum's mission is to foster broader industry participation in the development of future versions of the HDMI Specification and to further expand the ecosystem of interoperable, HDMI-enabled products. For more information, please visit www.hdmiforum.org.
