

Premium HDMI Cables on Display at Computex Taipei

HDMI Computex Show Update

Premium HDMI Cable Certification Program Adds More Participating Companies

Taipei, Taiwan, May 30, 2016 - HDMI Licensing, LLC today announced that several of its Adopters participating in the Premium HDMI Cable Certification Program will be displaying Premium HDMI Cables at Computex Taipei. HDMI cables certified under this program are designed and tested to ensure performance at the full 18Gbps required for the latest HDMI-enabled features.

Certified cables also display an anti-counterfeit authentication label that can be scanned by an HDMI smartphone app available in various app stores, which ensures manufacturers, retailers and consumers that the cables are authentic.

The newest consumer electronics products in the market have advanced features such as 4K/UltraHD at higher 60Hz frame rates, high dynamic range (HDR), expanded color space, and 10 bit color. HDMI cables are a critical component in a 4K/Ultra HD system, and consumers using Premium HDMI cables to connect their equipment can be assured they will enjoy the full potential of their products and the feature-rich content of the 4K/UltraHD experience.

"We now have almost 50 Adopters participating in this program," said Brad Bramy, marketing director of HDMI Licensing, LLC. "They are making sure their Premium HDMI Cables are ready for today's new 4K/UltraHD products and we are thrilled to see the program growing and involving so many manufacturers"

Premium HDMI Cables Will Be On Display from the Following Companies

GLORY MARK ELECTRONICS LTD. TAIWAN BRANCH (B.V.I); SHENZHEN EAST-TOPTECH ELECTRONIC TECHNOLOGY CO., LTD.; SURE-FIRE ELECTRICAL CORPORATION; TRANS ELECTRIC CO., LTD.; TSAY-E (B.V.I.) INTERNATIONAL INC.; WIRETEK INTERNATIONAL INVESTMENT LTD.
