

Park Place Technologies Named to Inc. 5000 List of America's Fastest-Growing Private Companies for Tenth Time

Global IT infrastructure services leader ranks 4,874 in its return to the prestigious annual ranking

CLEVELAND, Ohio, August 11, 2026 – Park Place Technologies, a global IT infrastructure services provider, has been named to the 2026 Inc. 5000, the annual list recognizing the fastest-growing private companies in America.

Park Place earned the No. 4,874 spot on this year's ranking, rejoining the list after narrowly missing the cutoff in 2025; it has received this recognition for 10 years. The Inc. 5000 has become one of the most respected measures of entrepreneurial success and sustained business growth in the United States, recognizing companies that have demonstrated significant revenue growth while navigating changing market conditions.

"Being named to the Inc. 5000 once again is a testament to the dedication of our employees, the trust of our customers and our ongoing commitment to helping organizations optimize their IT infrastructure," said Chris Adams, President & CEO, Park Place Technologies. "As businesses continue to navigate increasingly complex technology environments, Park Place remains focused on delivering innovative solutions that reduce costs, extend asset lifecycles, and simplify IT operations worldwide."

Since its founding in 1991, Park Place Technologies has built a global presence serving organizations across industries with third-party maintenance, managed services, professional services, IT asset disposition and network monitoring solutions. The company's continued growth reflects increasing demand for flexible, cost-effective alternatives that help enterprises optimize their technology investments.

This year's recognition marks another milestone in Park Place's history of appearances on the Inc. 5000.

"Returning to the Inc. 5000 underscores the resilience of our business and the strength of our long-term growth strategy," said John Stock, Chief Commercial Officer, Park Place Technologies. "We're proud to be recognized among the nation's most successful private companies and remain focused on delivering exceptional value to customers around the globe."

The 2026 Inc. 5000 celebrates the private companies that have achieved remarkable growth over the past three years, representing a wide range of industries that are shaping the future of the U.S. economy.

About Park Place Technologies

Park Place Technologies is a leading global IT infrastructure services firm with \$1.2 billion in annual revenue and 3,300 employees. We help 25,000+ organizations in 180 countries – including half the Fortune 500 – fuel innovation and accelerate AI transformation by dramatically reducing time and money spent on IT infrastructure management, while boosting performance and uptime.

Powered by the world's largest on-the-ground engineering team, a robust group of advanced engineers, and our global Enterprise Operations Centers, Park Place delivers significant cost savings on hardware maintenance, software technical support, hardware procurement, and more. We also streamline IT infrastructure management, freeing internal teams from day-to-day tasks, enabling them to focus on strategic initiatives — including AI acceleration.
