

Mega Media Industrial Introduces Durable Weather Enclosure for ZyPer4K-XS Copper Decoder

LITTLETON, Mass. and ERIE, Penn., December 8, 2022 – Mega Media Industrial, makers of custom security, enclosure and kiosk solutions for the AV industry, has created a durable weather enclosure for the ZeeVee ZyPer4K-XS SDVoE decoder (copper version).

The enclosure offers robust weather resistance and security for outdoor AV applications. The powder-coated, fully welded steel enclosure features sealed gaskets, hidden hinges and an integrated exhaust fan. It is designed only for those decoders using Power over Ethernet as their power source.

“The market for outdoor AV for is growing for a wide range of venues, including restaurants, sporting events and concerts,” said Art Weeks, director of Product Management, ZeeVee. “Mega Media Industrial has a strong track record of designing enclosures and mounts that maximize and protect end-users’ investments, particularly in harsh and challenging environments.”

“ZeeVee is fast-emerging as a leading source of high quality and dependable SDVoE AVoIP signal distribution solutions across a wide range of outdoor applications,” said Jamey Stewart, president, Mega Media Factory. “This enclosure is designed to not only make existing exterior AV systems safe from the elements, but to open the door to new applications that were not previously possible.”

The enclosure is shipped ready to install and mount a ZyPer4K-XS decoder, with pre-drilled 3/8-inch holes, two vent plugs, two IP54 rated cord grips, stainless steel mounting fasteners and square key.

[This video](#) illustrates the value proposition of the enclosure, including how it can be used to quickly mount a ZyPer4K-XS copper decoder.

The enclosure, part number ENC1210-ZV, can be ordered directly from Mega Media Industrial via the company’s website (www.megamediaindustrial.com) or phone (814) 314-8887.

About Mega Media Industrial

[Mega Media Industrial](#), a division of Mega Media Factory, provides customized AV solutions for demanding environments, with products ranging from outdoor security and weather enclosures, wall and remote control mounts and side skirts for displays. These products are purpose-built and designed to be safe, secure and easy to install to ensure that AV equipment is safe from non-authorized access, theft and the elements. The company also offers turnkey AV solutions, as well as professional creative, pre-configuration, consulting and commissioning services.
