ZeeVee's Latest SDVoE Decoder and Award-Winning AV over IP Encoder Make Far East Debut at InfoComm Asia

BANGKOK, July 1, 2024 – ZeeVee will display its recently enhanced ZyPer4K-XS SDVoE 10Gb decoder and award-winning ZyPerUHD60-2EMP AVoIP 1Gb encoder at InfoComm Asia 2024, from July 17 to 19 in booth A20.

The company's updated ZyPer4K-XS SDVoE decoder with Dante and full USB 2.0 functionality offers a robust and cost-effective solution for the distribution and switching of uncompressed 720p, 1080p HD, Ultra HD and 4K resolution content, audio and control via off-the-shelf 10Gb Ethernet switches. A lightweight and durable chassis, as well as quiet fanless thermal management, enables it to be placed virtually anywhere.

The ZyPerUHD60-2EMP, which delivers pixel-for-pixel reproduction of compressed 1080p HD and full 4K@60 4:4:4 UHD resolution content over 1Gb networks, is the industry's first encoder that incorporates a comprehensive control and security interface. By integrating the company's popular ZyPer Management Platform (ZMP 3.x), the ZyPerUHD60-2EMP is capable of operating an AVoIP system with enhanced network, account and GUI application safeguards – all without the need for additional components.

"By integrating advanced management and security capabilities into the ZyPerUHD60-2EMP encoder, as well as Dante and USB support into the ZyPer4K-XS, we offer integrators and their customers additional elements that provide simplified and cost-effective AV system deployment solutions," said Ricky Tan, regional sales manager, southeast Asia and Taiwan, ZeeVee. "We look forward to showing how we make AV over IP easy with dynamic demonstrations in our booth by our experienced sales and technical staff."

To schedule an appointment with the ZeeVee team at InfoComm Asia, please contact Ricky Tan atrtan@zeevee.com.

About ZeeVee

ZeeVee is a leading provider of AV signal distribution technology. The company has revolutionized the pro AV and IT industries with its award-winning encoders, decoders and software. Integrators and AV consultants rely on ZeeVee for its reliability, value and easy-to-install AV over IP, RF modulation and IP streaming platforms for enterprise, academic, government, healthcare, casino, museum, hospitality and retail customers. The company is a founding member of the SDVoE Alliance and a PSNI Global Alliance Vendor Partner. It holds a GSA schedule and its products are TAA-compliant. ZeeVee is headquartered in greater Boston with its European head office in Augsburg, Germany, and Southeast Asian offices in Singapore.
