

Kramer Announces Q2 AVoIP Training Webinars to Help AV Professionals Enhance their Skills and Find the Right Solution

CLINTON, N.J., March 25, 2025 – Kramer, a global leader in AV solutions, announces its upcoming series of AV over IP (AVoIP) training webinars, designed to help AV professionals navigate the ever-evolving landscape of AVoIP.

With a wide array of options available—including H.264, JPEG 2000, SDVoE, 1Gb and 10Gb—choosing the right AVoIP solution can be complex. With these programs, Kramer, along with ZeeVee by Kramer, is making it easier to identify the best products and approaches for every project.

This webinar series will provide valuable insights into network readiness, system design and advanced imaging capabilities, equipping AV professionals with the knowledge they need to make informed decisions. Select webinars also offer CTS renewal credits, making them an excellent opportunity for continuing education and professional development.

Upcoming Webinars:

- **April 15, 2025 | 1-2 PM EDT** – *Live Podcast: AVoIP Simplified – Selecting the Best Fit for Your Project*
 - Explore the essential factors for selecting an AVoIP solution tailored to different environments, from corporate offices to entertainment venues.
- **May 6, 2025 | 1-2 PM EDT** – *Webinar: AVoIP Network Preparation – Readiness and Design*
 - Learn about key considerations for designing and preparing an AVoIP network. Attendees will receive 1 CTS credit.
- **May 20, 2025 | 1-2:15 PM EDT** – *Webinar: Advanced Imaging Capabilities in AVoIP*
 - A deep dive into multiview and video-wall solutions. Attendees will receive 1.25 CTS credits
- **June 26, 2025 | 2-3 PM EDT** – *Webinar: InfoComm 2025 Recap*
 - A recap of the latest Kramer innovations and industry trends from InfoComm 2025

Kramer and ZeeVee by Kramer provide integrators and end-users with a complete portfolio of AVoIP solutions, addressing needs across diverse applications such as those found in corporate, education, hospitality, control rooms, and entertainment settings. Whether an AV professional is seeking scalable QAM solutions, high-performance SDVoE or low-latency video distribution, this webinar series will help demystify the options and provide practical guidance on implementation.

“The AVoIP market is filled with choices and selecting the right technology can feel overwhelming,” said Art Weeks, product manager at ZeeVee by Kramer. “Our goal is to simplify this process by providing education and insights that help AV professionals make informed decisions. These webinars will deliver the technical expertise needed to navigate the world of AVoIP with confidence.”
