

Ashton Bentley by Kramer Display Mounts Now Certified for FORTÉ'S VELOCITY Pre-Engineered Meeting Room Solutions

ORLANDO, June 5, 2025 – Answering the market's call for the seamless integration of AV technology in meeting rooms and other presentation spaces, Kramer announces its Ashton Bentley integrated display and soundbar mounts are now certified for use with select FORTÉ VELOCITY pre-engineered meeting solutions. Ashton Bentley's solutions will be on display in Kramer's InfoComm booth #4743.

This certification ensures that Ashton Bentley mounts, which are designed for single- and dual-displays ranging from 43" to 105", meet FORTÉ VELOCITY's high standards for fast, reliable and scalable meeting room deployment. Offering complete installation flexibility, each display mount offers the option to be tethered to a wall, freestanding or have a mobile base to become a trolley. The display mount can support all leading videobars offered by VELOCITY from Jabra, Logitech, Neat and Poly.

Ashton Bentley display mounts, along with its AV technology and meeting room tables, provide organizations with a complete and cohesive presentation space solution. Designed to be installed quickly and with no tools, Ashton Bentley systems simplify and optimize meeting spaces for every business.

FORTÉ VELOCITY offers a full catalog of meeting room products and solutions that are deployed with unprecedented speed, scale and reliability. They leverage decades of integration expertise and logistics capabilities that enable organizations to meet their specific communication and collaboration needs.

This partnership between the two companies will enable users to experience enhanced productivity and ease-of-use in the spaces where they share ideas and information.

"This collaboration brings together VELOCITY's fast-track deployment model and Ashton Bentley's pre-integrated, installer-friendly mounting systems, offering customers a cohesive and easily adaptable meeting room solution," said Roger McArdell, chief technology director at Ashton Bentley by Kramer. "It is another example of our commitment to extending our market footprint, pushing the boundaries of innovation and delivering enhanced value to our global customer base."

"Speed and ease of deployment are hallmarks of both companies' commitment to offering seamlessly integrated industry-leading technologies that advance how organizations of all shapes and sizes are conducting their business," said Zach Valigura, vice president of Integration and Delivery at FORTÉ. "This collaboration with Ashton Bentley is a significant development in the meeting room technology market."

About Ashton Bentley by Kramer

Ashton Bentley by Kramer is a global leader in integrated meeting room solutions, offering a flexible range of products that combine technology, functionality and design. Ashton Bentley provides components and complete meeting room systems that are simple to buy, install, use and maintain, thus removing the complexity normally associated with equipping meeting rooms with technology-integrated tables. Just "walk in and work."

About Kramer

Kramer audio-visual experiences power creativity, collaboration, and engagement. From AVSM to advanced cloud-based communication, collaboration and control solutions, Kramer creates audio-visual experiences that are more engaging, more inclusive, and more connected than ever before.

Headquartered in the heart of Startup Nation - Tel Aviv, Israel with locations around the world, Kramer's audio-visual experts are designing the future of engagement technology. Physical and digital boundaries have blurred. But no matter how hybrid our world becomes, our desire for real, human connection will never cease.
